SEQUENCE 8.3.2

Issue Date: 26 July 2017

Introduction

This is an update for Sequence v8.3.0, which includes new product functionality, and resolves product issues, detailed below.

Enhanced Functionality

HotOperations UX

- You can now open cases and tasks by double-clicking the tiles on work allocation or work assignment boards.
- (Breaking Change) You can now view a task's subject line in the tiles on the work assignment board. (Compared to task alias in the previous version.)
- You can perform any action from the work assignment and work allocation boards, that exist in the grids.

Resolved Issue

Imports on PNMsoft cloud environment in persistent loop
Resolution: Deployment code was updated to overcome SQL Azure limitations.

Update Steps

Update from 8.3.1:

1. Make sure the following files and folders are on the same level in the server.
   - Azure
   - GAC
   - Shared Resources
   - `exe.bat`
   - `PatchTo8_3_2.ps1`
2. From the update folder, right-click the EXE file and select **Run as administrator**.

> *Note: If you are running a Sequence version earlier than 8.3.1, you must install v8.3.1   before you install v8.3.2.*
